FROM: DEPARTMENT OF FINANCE

NOTE: This Budget Letter (BL) provides technical information to departmental Accounting Officers about a change for the 2000-01 fiscal year-end reports. Other addressees are provided this BL for informational purposes.

This BL notifies departmental Accounting Officers of a technical change in reporting encumbrances and related reimbursements for the 2000-01 year-end financial reporting. This change will reduce unnecessary workload for the State Controller's Office (SCO) and departments.

At year-end, an encumbrance exists when there is a commitment against an appropriation where goods and services have been ordered but will not be received until after June 30. Thus payment of encumbrances will not have occurred by June 30. A payable exists when there is a valid obligation against an appropriation where the goods and services have been received, but payment will not occur until after June 30.

Prior to this year, departments reported year-end encumbrances and payables in multiple liability accounts. For the 2000-01 year-end reporting, departments will report encumbrances in a single liability account only. Payables (obligations where goods and services have been received) will continue to be reported in the multiple accounts.

Accounting Officers are referred to this BL's attachments for more detailed instructions and examples of the accounting procedures. This reporting change has been coordinated with the SCO and is being included in its year-end training.

For CALSTARS departments, detailed procedures for the encumbrance liability and any related reimbursement will be further provided in the CALSTARS year-end training. Direct any questions to the CALSTARS hotline at (916) 327-0100, CALNET 467-0100, or e-mail HOTLINE @dof.ca.gov.

Other departments are directed to contact the Fiscal Systems and Consulting Unit at (916) 324-0385, CALNET 454-0385, or e-mail FSCUHotline@dof.ca.gov for assistance.

Detailed Instructions for Year-End Encumbrance Reporting for 2000-01

Budget Letter 01-10 notifies departments of changes to the year-end financial reporting requirements for encumbrances and any related reimbursements. The requirements are effective with the fiscal year 2000-01 year-end financial statements.

At year-end, departments identify the amount of payables and the amount of encumbrances as of June 30. Payables are goods and services received that have not been scheduled for payment or reimbursement as of June 30. Encumbrances represent commitments for goods and services that will be received in the following year. In the past, payables and encumbrances were reported in the applicable liability general ledger accounts (GLA): Accounts Payable (GLA 3010), Due to Other Funds or Appropriations (GLAs 3114 and 3115), or Due to Other Governments (GLAs 3210, 3220, and 3290).

Currently, the State Controller's Office (SCO) must reduce all applicable liability accounts that include an amount for encumbrances in preparation of the State's Annual Report. To facilitate the SCO's process, departments will report all liabilities for encumbrances in one liability account, Accounts Payable (GLA 3010). The total encumbrances will be shown as a credit in the encumbrances column for GLA 3010 on the Report of Accruals to Controller's Accounts, Report No. 1. (See Attachment page 3 of 5.)

In addition, any accrued reimbursement that will fund an encumbrance will be reported in one asset account, Accounts Receivable-Reimbursements (GLA 1312). The reimbursement for encumbrances will be shown as a debit in the encumbrances column for GLA 1312 on the Report of Accruals to Controller's Accounts, Report No. 1. (See Attachment page 2 of 5.)

If significant modifications to departments' accounting systems are needed to meet the new encumbrance reporting, departments are granted an exemption for 2000-01 only. Exemptions for subsequent years must be requested from the Department of Finance, Fiscal Systems Consulting Unit.

As described above, the reporting change is to the liability accounts for encumbrances and the asset accounts for any related reimbursement. Payables will continue to be reported in the applicable liability accounts.
